

37, 41, 45 and 46 in part and Claims 4 and 34-36 with traverse for continued prosecution.

REMARKS

Applicants have elected, with traverse, Group II, directed to a antibody hetero dimer, in response to the restriction requirement made by the Examiner. The traversal is on the basis that the search required for all groups is substantially co-extensive.

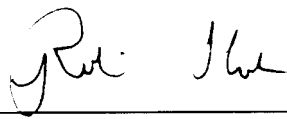

The paper copy of the Sequence Listing for the subject application is, by this Amendment, added after the last page of the specification. As further required, a computer readable copy of the Sequence Listing is attached hereto.

In accordance with 37 C.F.R. §1.821(f) and (g), attached hereto is a signed statement verifying that the content of the paper copy and the computer readable copies of the Sequence Listing are the same and that this submission contains no new matter.

Favorable consideration on the merits is respectfully requested.

Respectfully submitted,

SHAW PITTMAN
